PROFILE

Entry-level **SQL Developer** with strong knowledge of relational database design, query optimization, and data analysis. Skilled in writing complex queries using **Joins, Subqueries, Window Functions, and Aggregate Functions**. Experienced through academic and self-driven projects in **banking, cab booking, and sales analytics**, delivering insights and ensuring data integrity. Seeking an opportunity to apply SQL expertise in a professional environment.

PROJECTS

May 2025 – Jul 2025

Zomato Sales Analysis

Tools: MySQL, Aggregate Functions, Subqueries

- Created SQL queries to analyze **restaurant sales, order frequency, and customer preferences**.
- Used **grouping and subqueries** to track **top-selling items and customer retention rates**.
- Delivered insights into **monthly revenue patterns**.

Jul 2025 – Aug 2025

Cab Booking Database System

Tools: MySQL, ER Modeling, Joins, Window Functions

- Built a relational database with **6 interconnected tables** (customers, drivers, cabs, bookings, trips, feedback).
- Applied **constraints (PK, FK, UNIQUE, CHECK)** to ensure **data accuracy**.
- Wrote queries for **driver performance, customer trends, and revenue reports**.
- Designed an **ER diagram** to map entity relationships.

Aug 2025 – Sep 2025

Bank Fraud Detection

Tools: MySQL, Subqueries, CASE, Window Functions

- Developed SQL logic to detect **suspicious transactions** based on amount patterns and frequency.
- Used **nested subqueries and CASE statements** for fraud flagging.
- Generated reports to compare **fraud vs. normal transactions**.

TECHNICAL SKILLS

SQL & Databases

MySQL, PostgreSQL, Joins, Subqueries, Window Functions, Query Optimization, Stored Procedures, ER Modeling.

Programming (supporting skills)

Python (Pandas, NumPy).

Data Tools

Excel (Pivot, VLOOKUP, Aggregate Functions), Power BI (basic).

Other

GitHub, Jupyter Notebook, Windows/Linux OS.

CERTIFICATES

• GenAI-Powered Data Analytics Job Simulation 

• SQL Mastery (Data Analytics) 

• Introduction to Data Analytics 

• Data Analytics Job Simulation 

• Advanced Excel Mastery (Data Analytics) 

• Intern in CodSoft 

COURSES

May 2025

Data Scientist

IT Vedant Institute
(Pursuing)

pune, India

EDUCATION

Jun 2022 – Jun 2025

Bachelor in Computer Science

Savitribai Phule Pune University

Pune, India

INTERESTS

Database Management & Optimization

building efficient schemas and writing optimized SQL queries.

Financial Markets

studying trends in stock/forex and applying data-driven insights.

AI & Data-Driven Strategies

exploring how automation and data models improve decision-making.

Creative Design

photo editing and visualization to present data in an engaging way
